No. 2455-Est A.

RESOLUTION—By the Government of India, Foreign Department.

In the Resolution of the Government of India in the Foreign Department No. 1573-G, dated the 18th July 1908, the Governor-General in Council announced that His Majesty's Secretary of State for India had sanctioned the introduction of a scheme for the reorganisation of the Political Department of the Government of India. The main feature of the scheme was the establishment of a dual cadre giving different rates of promotion to members of the Indian Civil Service (including members of the Punjab Commission) on the one hand and to Military and other members of the Department on the other. This scheme which was of a tentative character only and now has been in operation for more than five years has in the opinion of the Governor-General in Council proved inconvenient and unsatisfactory and has failed to meet the legitimate expectations of the members of the Department. The position has further been complicated by considerable reductions in the strength of the Department which have been rendered necessary by the abolition of certain appointments in Rajputana and Persia. In the circumstances and in view of representations which have reached him from various quarters, the Governor-General in Council has had under consideration the possibility of devising some alternative scheme which would at the same time remove the objections to the existing system and simplify the reconstruction of the Department on its reduced basis. The objects to be sought were, firstly the abolition of the dual cadre with its attendant anomalies and inconveniences, secondly the amelioration of the position of officers now on the General cadre, and thirdly the introduction of a scale of pay which would assure a steady flow of promotion to officers at present in the Department and to those who may hereafter be admitted to it.

2. The Governor-General in Council now desires to announce that His Majesty's Secretary of State for India has sanctioned the introduction with effect from the 21st May 1911, of a revised scheme, the principle of which is to substitute for the graded system hitherto in force a time-scale of pay, at uniform rates, for all members of the Department below the grade of Resident, with additional personal allowances for members of the Indian Civil Service and of the Punjab Commission calculated at a rate which will give them approximately the emoluments which they might expect to draw in the Provinces. Acting or charge allowances under chapters V to VII of the Civil Service Regulations will not be given within the time-scale except as provided in clause (3) of paragraph 4. But an officer on time-scale pay officiating as, or placed in charge of the duties of, a Resident will get the acting or charge allowance admissible under the Civil Service Regulations; and all officers will continue to receive the charge allowances admissible under Chapter VIII of the Regulations. The rates of pay and personal allowances are shown in the following table:—

Year of Civil Service	Rate of pay on time-scale.	Rate of personal allowance for officers of the Indian Civil Service or of the Punjab Commission.	Year of Civil Service.	Rate of pay on time-scale.	Rate of personal allowance for officers of the Indian Civil Service or of the Punjab Commission.

			23rd and over ..	2,400	Nil.

Maximum pay of officers on time-scale, Rs. 2,400.

3 Above the time-scale will remain 15 selection posts, viz., six Residents, first class; and nine Residents, second class; the latter appointments carrying a uniform rate of pay at Rs. 2,750 a month Promotion to these appointments will continue to be by selection, not only from the Department, but, if necessary, from outside it.

4. In order to guard against any possible ill-effects of the introduction of a time-scale of pay, the following rules will be observed :—

(1) No officer shall draw more than Rs. 850 a month unless he is reported to be fully qualified for the charge of a "superior" post. An officer whose pay is restricted under the operation of this rule will ordinarily lose in seniority.

(2) No officer shall draw more than Rs. 1,250 a month unless he actually holds a "superior" post or is employed on special duty which is declared at the time to be of the nature of a "superior" post.

(3) An officer who has not completed nine years' civil service shall draw, when posted to an appointment classed as "superior," a charge allowance of Rs 200 a month, subject to the condition that his salary (excluding the personal allowance for members of the Indian Civil Service and of the Punjab Commission) shall not exceed Rs. 1,000 a month.

5. The Department will henceforth be constituted as follows :—

Selection posts	15
Appointments on a time-scale of pay	122
Total strength ..	137

Under normal circumstances the Department will consist of 40 members of the Indian Civil Service or of the Punjab Commission and 97 military or other officers. The appointments included in the cadre of the Department as well as those classified as "superior" are shown in the list attached to this Resolution.

6 The existing local and language allowances will be retained subject to the following modifications :—

(1) A local allowance of Rs. 150 a month will be attached to the appointment of Resident, Western Rajputana States, in consideration of the addition to his duties of the political charge of the Bikaner State.

(2) A similar local allowance of Rs. 150 a month will be attached to the appointment of Resident at Jaipur, in consideration of the addition to his duties of the political charge of the Tonk State. This allowance will, however, be held in abeyance during such periods as an Assistant may be posted to the Jaipur Residency.

(3) A local allowance of Rs. 250 a month will be attached to the appointments of Divisional Judge, Peshawar, and Divisional Judge, Derajat.

(4) The local allowance of Rs. 250 a month attached to the appointment of Revenue Commissioner, North-West Frontier Province, will be abolished, as the pay of that appointment is now increased to Rs. 2,750 a month.

(5) The local allowance attached to the appointment of District Judge, Peshawar, will be reduced from Rs. 250 to Rs. 100 a month The allowance will be subject as at present to the condition that the sum of salary and local allowance shall not exceed Rs 1,300 a month.

7. In view of the substantial increase of emoluments which the majority of the members of the Department will enjoy as a result of the introduction of the new scheme, Exchange Compensation Allowance will be discontinued to all officers, except to those substantive or officiating in the grades of Resident.

8. There are certain subsidiary points in connection with the scheme which require special mention. The first of these is the question of the date from which officers of the present General cadre should count service for seniority and for increment under the time-scale. As a general principle, all continuous service under the Foreign Department will be allowed to count, subject to the proviso that the present order of seniority among officers of the General cadre will remain unaltered, and that no officer will be permitted to draw as substantive pay, exclusive of personal allowance, more than any officer who stands above him on the graded list.

In several instances, however, officers have been brought into the Department at an age and at a period of service beyond the ordinary limit in consideration of special qualifications or for special reasons It has been decided to treat such officers as exceptions to the principle referred to above, and to allow them, for the purpose of reckoning their pay and seniority, to count their service from the date of commencement of civil service of the next officer below them on the list, who was admitted to the Department under normal conditions.

9. A further point is the question of the relative seniority to be accorded to civilians and military officers in the new scheme. The principle adopted in preparing the amalgamated list has been to grade all officers already in the Department subject to the provisions of the preceding paragraph, simply in accordance with their length of civil service, with the proviso that, when a member of the Indian Civil Service or of the Punjab Commission and a Military or other Political Officer commenced their service, civil or political, in the same year, the former will be treated as the senior. This corresponds to the rule in the Punjab, Burma and the old Assam Commissions. This principle will, however, only apply to the cases of officers already in the Department; future entrants, both civilians and military officers, being graded strictly in accordance with the date from which each officer is entitled to count his service for increment under the time-scale

10. Although, in the opinion of the Governor-General in Council, the scheme outlined in the foregoing paragraphs is calculated to remove existing grievances and to satisfy the reasonable

aspirations of officers in the department, in a few individual cases there will be an immediate loss of salary. To compensate for such loss it has been decided to grant a personal allowance to each officer whose average salary for a fixed period previous to the introduction of the scheme has exceeded that which the time-scale *plus* the charge allowance in the case of junior officers holding superior appointments gives him. Separate orders will be issued later as to the principles on which such allowances will be calculated.

11. No refund of pay or allowances drawn by officers in the interval between the 21st May 1911, and the date of these orders will be required on the ground of the retrospective sanction accorded to the new scheme.

Reasons for disafforestation.—At the time of the settlement of the Kalanjimale block the Forest Settlement Officer rejected the claim to the area now proposed to be disafforested. On appeal, the District Judge reversed the Forest Settlement Officer's order and the High Court upheld the District Judge's order. But the notification under section 16 of the Madras Forest Act (V of 1882) wrongly included the area within the reserve. In practice, however, the area has always been treated as a private holding.

THE MADRAS VETERINARY COLLEGE PROSPECTUS

As there appears reason to believe that intending candidates for employment in Government service are in many cases not aware of the existence of the Madras Veterinary College and of the prospects offered by a veterinary career, the following prospectus of the college is published for general information. The rules of the college and the scale of the provincial and the subordinate veterinary service are liable to be altered if need requires at any time :—

1. The college affords theoretical and practical instruction in subjects appertaining to the veterinary profession with the object of training men for service under Government, Municipalities, Local Board or private employers. The staff of the college consists of a Principal, an Assistant Principal, three lecturers and a subordinate establishment. The responsibility for the discipline and management of the college is vested in the Principal who is subject to the control of the Board of Revenue. Full clinical and other facilities are afforded to meet the education requirements of students preparing for the diploma in Veterinary Science. A Veterinary hospital, museum, library, shoeing forge and students' hostel are attached to the college.

2. Candidates are eligible for admission without distinction of caste or nationality. They must not be under 18 years of age at the commencement of the term for which admission to the college is desired. Students are admitted to the college by selection, which will be made by the Principal. Applications for admission should be made in writing in the prescribed form printed at the end, and they should be submitted so as to reach the Principal not later than the 5th December of each year and should be accompanied by the following certificates :—

(a) of age,

(b) of physical fitness and moral character,

(c) that the applicant has passed the Matriculation Examination of an Indian University, or that he has obtained 45 per cent. of marks in English and 35 per cent. in other subjects in the School Final Examination, except in the case of Europeans and Eurasians who may be admitted, though unpassed, at the discretion of the Principal.

3. In the event of a candidate being selected, he will be served with a special notice informing him of the particular day and hour when and the place at which, he should present himself for personal selection. Candidates whose admitted will be considered to be on probation for the first two months of the course and may be removed if found to be not satisfactory.

4. *Course and study and curriculum of instruction.*—The course of study for the diploma ordinarily extends over three years. The students of each year's course form a separate class. The number of students in each class is ordinarily limited to 20. Promotion from one class to another is made with reference to the results of the annual examinations. A student who fails in the class examination for two consecutive years is liable to be removed from the college.

The curriculum of instruction is as follows :—

(i) *First year*—

(1) Anatomy (up to Arthrology)
(2) Elementary Chemistry.
(3) Elementary Botany.
(4) Materia Medica.
(5) Handling of animals.
(6) Pharmacy (Theoretical and Practical).

During this year students are given practical instruction in nursing, dressing, handling, casting and securing animals as well as in the names of the instruments and appliances used in ordinary practice.

(ii) *Second year*—

(1) Anatomy (the whole including Comparative Anatomy).
(2) Physiology.

(3) Hygiene (including Breeding and Rearing).
(4) Principles of Horse shoeing.
(5) Theoretical Veterinary Medicine and Surgery.
(6) General nursing and instructions in the use of instruments and appliances.

During this year students are required to attend hospital practice and receive clinical instruction. They are also required to attend at the Forge and Pharmacy, to carry out dissections and to perform operations on the dead subject

(ii) *Third year*—
(1) Equine Medicine and Surgery.
(2) Bovine and Ovine Medicine and Surgery (including Obstetrics).
(3) Diseases of dogs.
(4) Operative Surgery.
(5) Therapeutics (including Toxicology)
(6) Meat and milk inspections.
(7) Soundness of horses and ageing of domesticated animals.

During this year students are required to perform the duties of clinical clerks and dressers; to perform operations on dead subjects, and afterwards on living animals, to conduct *post-mortem* examinations and generally to carry out practically all the duties appertaining to their profession.

Students who hold the diploma in Agriculture are not required to attend the first year's course of study, but are examined in the subjects of both the first and second year courses at the end of their first year of attendance at the Veterinary College.

All students are required to undergo a course of equitation and gymnastics. A student absenting himself without leave from a lecture or from a practical, gymnastic or riding class is liable to be fined.

5. *Tuition fee and stipends*.—Tuition will be free but a fee of Re. 2 per term is payable by each student to meet the cost of sports. Government ordinarily allot ten scholarships annually each of the monthly value of Rs. 20 in each class, but reserve the right to decrease the number or alter their value, if necessary. Scholarships in the first year will be awarded by the Principal on the results of the first three monthly examinations. Scholarships tenable in the higher classes are ordinarily allotted on the results of the monthly and annual examinations. A student already in the enjoyment of a scholarship from a local body or a private person is not eligible to compete for a Government scholarship. All scholarships are conditional on the good behaviour of the holders. Students who are in the enjoyment of the Government scholarships are required to refund the amounts which they have received if they leave the college without sanction or are expelled for misconduct.

6. In consideration of the free tuition given at the college, graduates will be required to execute an agreement binding themselves to serve Government in the Civil Veterinary Department for at least five years if their services are required so long, and to refund to Government the total cost of their veterinary education in case they are unwilling to serve Government as required.

7. *Terms and time-table*.—Each year comprises two terms—a spring session from January to March and an autumn session from July to December. Tables of the times and subjects of lectures to which both teachers and students should adhere will be posted on the notice board at the commencement of each term.

8 *Vacations and holidays*.—(i) In addition to the miscellaneous public holidays, the students are allowed the following vacations and holidays :—

Midsummer vacation (three months),
Michaelmas holidays (one week),
Christmas and Easter holidays (gazetted).

Students are required to attend hospital cases in turn during vacations.

(ii) Leave of absence is granted by the Principal only. Scholarship-holders may, at the discretion of the Principal, be granted casual leave, with allowances, for not more than five days at a time or ten days in the year, but no casual leave will be granted in continuation of other holidays with allowances. Any further leave to scholarship-holders except sick leave for a month will be subject to stoppage of scholarship. Leave of absence in each case of illness will be recognised only on the production of a certificate from a duly qualified medical practitioner.

9. *Examinations*.—Examinations are conducted orally and are held annually in December in all the classes. For admission to the examination candidates must have studied at the college for such time as may be prescribed and have attended at least three-fourths of the year's lectures and have done practical work in their respective classes.

10 *Diplomas and certificates*.—A diploma as graduate in Veterinary Science is awarded to students who have gone through the full course of three years' study at the college and have passed the final examination.

Such of the students as are elected clinical clerks and prosectors and perform their duties satisfactorily are, in addition, awarded special certificates on passing the final examination.

11 *Miscellaneous*.—The hostel attached to the college provides accommodation for 23 students. Students are at liberty to make their own arrangements as to their board and lodging. A monthly rent of Re. 1 for a single room and As. 12 for a double room, i.e., a room accommodating two students, will be charged from each student who elects to take up his lodging in the college hostel.

12. *Prospects of students who pass out of the college.*—Graduates of the college are eligible for appointment to the following posts in the provincial and subordinate service of the Civil Veterinary Department in the Madras Presidency :—

EXTRACT OF A REPORT ON THE USE OF THE "SCRUB ERADICATOR" * MANUFACTURED BY MESSRS. JOHN FLEMING, BOMBAY, FOR REMOVING VEGETATION FROM ANCIENT BUILDINGS.

Vegetation which attacks historical buildings may be divided into two classes :—

(1) Young vegetation, such as grass, creepers, etc., with tender sappy stalks merely on the surface of the buildings and which has not penetrated deeply into the joints of masonry.

(2) Pipal, banian or other trees whose roots have become deeply embedded causing stones to be displaced and thereby endangering the structure.

Both class 1 and 2 may be further sub-divided for purposes of clearness into—

(*a*) Vegetation which grows on a horizontal surface.
(*b*) " " " vertical "

It is evident that class 1 (*a*) should be the easiest to remove and it is for it that this Scrub Eradicator has been found effective.

For class 1 (*b*) the Eradicator may be pumped into the joints, by means of a syringe (this has been most successful at Jaunpur) and the joints should then be filled with good sound cement. It is a waste of the Eradicator to sprinkle it down the face of the wall with a watering can trusting that some of the liquid will find its way into the joints affected.

For class 2 (*a*) and 2 (*b*) the best course to pursue is to dismantle carefully the part affected, remove the vegetation by hand, and rebuild while taking the utmost care by means of marking or photographing if necessary, to ensure the stones being replaced in their former positions.

It has been found for this kind of vegetation that a very large quantity of Eradicator is required which has to be applied at intervals and moreover the vegetation is not permanently destroyed. The Eradicator, if applied from outside, cannot soak down to the furthest extremity of the root, and, consequently, although the latter may be partially killed, it nevertheless re-asserts itself in a different direction.

* Directions for use—

Mix the composition with its own bulk of water and apply freely with a watering can or coarse 'rose' to the vegetation, roots, etc., to be removed.

In cases, however, where the climate is very moist and the masonry perhaps damp, it will be desirable to apply the composition undiluted. It must penetrate well down to the roots in order to kill these, and in very deep rooted 'scrub', it will be well to apply it two or three times over.

For class 2 (b), if the vegetation has reached the size of small trees, as is often the case, the following methods of applying the Scrub Eradicator have been tried:

(1) 'Ringing' the tree and applying the Eradicator all round so that the circulation of the sap may be checked.

(2) Drilling holes in the stumps of the trees (their tops having been previously cut off) and pouring in the Eradicator.

(3) Boring holes at the base of the trees and pouring in the Eradicator. In the Bellary district banian roots were killed by making ½" slits in the roots about 8" in length and introducing the Eradicator into the slit in a pasty form. But the roots in this case were on the surface of the wall. Officers seem unanimous as to its inefficacy for killing strong vegetation.

Summary.

The use of Eradicator must be largely left to the direction of the local officer. It is in certain cases a waste of time and money to use it; but it may be possible elsewhere to dismantle partially the masonry and then to use the Eradicator. It is no use attempting to kill the vegetation unless the furthest extremities of the roots are reached. These should be effectively ringed or stumped. In cases, however, where masonry has been made to bulge outwards by vegetation there is nothing to be done but to take down the part affected and to rebuild it after the removal of the growth. After vegetation has been removed from joints in a vertical position, the joints should be filled tight with good cement to within ½" of the face of the masonry. A good plan after removing vegetation from the tops of walls, domes, or other places invisible from below is to fill the cavities which are left with boiling tar, which may be dashed with coarse gravel before hardening.

It would seem desirable, therefore, from a study of the opinions which have been expressed in the matter, that the Eradicator should be less extensively used and only for smaller vegetation which comes under class 1 (*a*) and 1 (*b*). The checking of the growth of the latter in its earliest stage, especially of the pipal and banian seedlings, cannot be too strongly urged. Frequent inspections of buildings to watch for vegetation alone are absolutely essential.

The cistern of the Barometer is twenty-two feet above the level of the sea, and the receiver of the Rain Gauge is two feet from the ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 7·69 inches, the average due for the same period being 17·74 inches.
